

Solstice Reference

Apple Mobile Devices

Glossary

General Information	
	Wi-Fi PA College Wireless internet system. You can connect to Wi-Fi through a mobile device (such as a smart phone or tablet) or a laptop.
	Solstice App The Solstice App is an application that you download to your mobile device or laptop to connect to the classroom displays. You can download the app from the iTunes store (Apple devices), Google Play store (Android devices), or the Solstice website (Windows and MacBooks).
 AirPlay	AirPlay An alternative to connect to the classroom displays for Apple mobile devices only. To use AirPlay, swipe up from the bottom of your screen on your Apple device.

Always make sure you are connected to the PA College wireless (Wi-Fi) system on your mobile device. The Solstice software does not work on any other mobile internet system.

Connecting to Solstice using AirPlay

The simplest way to connect an Apple mobile device (iPhone or iPad) to the Solstice displays is through the **AirPlay** feature. **Note that when connected, the entirety of your screen is shown, including any notifications received on the device.**

Step 1: Connect to the Solstice display using **Airplay**.

- Swipe up from the bottom of your device's screen to open the options menu.
- Select the **Airplay** option and tap the Solstice device associated with your classroom.
- Tap the Mirroring slider button, your screen should now be showing on the display.

Step 2: Disconnecting from the Solstice display.

- Tap the Mirroring slider button on your mobile device to disconnect from the Solstice display. Your screen should no longer be showing and the Mirroring button will be grey.

Connecting to Solstice using the Mobile App

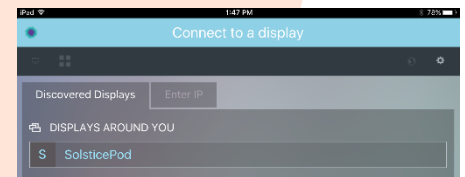

If you prefer not to share your entire screen, and only certain media files, the best way to connect to the Solstice display is through the **Solstice App**.

Step 1: Download, install and open the **Solstice App**.

- You can download the Solstice App from the iTunes store.
- Open the **Solstice App** by tapping on the icon on your device.

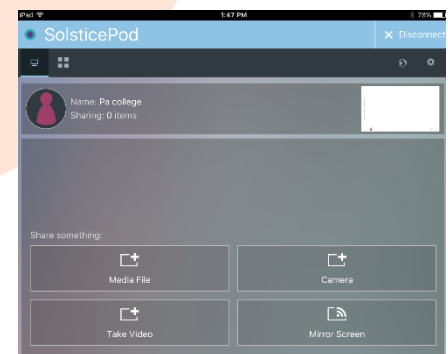

Step 2: Connect to a Display.

- Under Discovered Displays, select the Solstice display associated with your classroom.
 - The name of the device will be shown on the displays in the room.

Step 3: Share Something!

- You can share a media file, take a picture, or take a video and share it on the Solstice display.
 - Note: You cannot mirror from this screen, to mirror your device you need to use **AirPlay** (see above).

Step 4: Stop Sharing and Disconnecting from the Solstice Display.

- To stop sharing your content click on the Stop Sharing button.
- To disconnect from the display click on the Disconnect button.
